Great Barrier Reef

Australia

From \$4460 pp

## Thinking outside the box!

Ask someone to name a cruise line and the answer you'll probably get will be "Carnival" or Royal Caribbean." Why? Because those particular lines are usually the most visible with advertisements on television, newspapers, magazines and on the radio.

Have you heard of SeaDream...Star Clippers, Windstar...or Cruise West? These are just a few of the smaller niche cruise lines that offer a totally different cruise experience than the mainstream lines.

Cruise West, for example, cruises to Alaska, as well as other locations. But with an average guest capacity of around 150 passengers you get a much more personal experience. Plus they cruise up into the Alaskan fjords getting you much closer to the local wildlife than any of the other cruise lines can't even come close to.

Then there's the Star Clippers....ships that take you back to the days of the true sailing ships. Star Clippers sails to such exotic locals as the Indian Ocean, the Far East, and those little out of the way Caribbean islands that the big cruise ships can't pull into.

How about a cruise to Antarctica? Lindblad Cruises offers unique travel opportunities to visit this remote land that only few earthly inhabitants have had a chance to visit.

February is cruise month. So if you're looking for that big ship experience such as Royal Caribbean's new Oasis of the Seas, or your you want a small cruise with 100 people, we can arrange the right itinerary and location to fit your needs.

Please give our agency a call and we'll match you with the cruise itinerary of your dreams. Call us a 614-486-1943.
